

a²

6. (Amended) The method as claimed in claim 1, further comprising displaying a message received time and a caller's phone number, following the received message, on the first display.

a³

8. (Amended) A method for displaying a message in a folder-type mobile terminal including a main body, a sub-body foldably mounted to the main body, said sub-body having a first display mounted on an outer side and a second display mounted on an inner side thereof, the method comprising:

upon receipt of a message, while the sub-body is folded, displaying an indicator indicating receipt of the message on the first display;

upon receipt of a key input corresponding to a user's external display request, determining whether the first display is set to a double-line display mode;

if the first display is set to the double-line display mode, displaying the received message on a first line of the first display and fixedly displaying a message received time and a caller's phone number on a second line of the first display; and

if the first display is not set to the double-line display mode, displaying the received message on the first display.

REMARKS

It is respectfully submitted that the present application is in condition for allowance. Should the Examiner have any questions, it is respectfully requested that the undersigned attorney be contacted at the earliest convenience to discuss the present application.
